KASIM REED  
MAYOR

Greetings:

As Mayor of the City of Atlanta, it is my pleasure to welcome the Centers for Disease Control and Prevention (CDC), along with numerous other federal agencies, private-sector groups and community organizations, as you host the *2011 National HIV Prevention Conference*.

The prevention of HIV/AIDS remains one of the most significant challenges of our generation. While AIDS may no longer be the leading killer of Americans, aged 25 to 44, there are still an estimated 1.1 million people living with HIV infection in the United States and 56,000 new infections that occur nationally each year. In fact, the State of Georgia has the sixth highest rate of AIDS diagnosis in the country, with an estimated 19.7 diagnoses per 100,000 population in 2008. We cannot ignore this major health problem in our communities.

The important work of this year's *National HIV Prevention Conference* will help to encourage and promote healthy lifestyles among all our citizens. Indeed, the City of Atlanta is proud to host this event, as we continue to look for ways to partner, develop solutions and seek preventative measures, to combat HIV/AIDS in our community. The important work of the CDC, in conjunction with public health professionals, clinicians, community representatives and others, will enable us to make strides and help citizens take the necessary steps to protect themselves. We appreciate your continued advocacy and public education on the importance of HIV prevention in our nation.

On behalf of the people of Atlanta, I extend best wishes to you for a memorable and remarkable conference.

Sincerely,

A handwritten signature in black ink that reads "Kasim Reed".

Kasim Reed

## The Conference Logo

The National HIV Prevention Conference logo symbolizes the collaborative efforts of those who have committed themselves to stopping the spread of HIV in the United States. HIV has affected the lives of too many men, women, and children of all races and ethnicities, sexual orientations, ages, regions of the country, and walks of life. A multitude of colors were chosen for the logo to represent the incredible diversity of talented individuals and organizations that have dedicated themselves to the fight against HIV and the wide range of people whose lives have been affected by HIV.

The four triangular sections of the logo represent the coming together of individuals and organizations from four key sectors in the fight against HIV in this country:

- Researchers -- University, government, and community-based researchers
- Communities -- Community-based organizations, national and regional organizations, advocates, and those who are living with, or are personally affected by HIV
- Government -- Federal, state, local, territorial, and tribal governments and health departments
- Front-line providers -- The individuals who tirelessly work in a multitude of different community, clinical, educational, business, and faith-based settings to deliver the HIV prevention messages, services, and interventions that save lives

The National HIV Prevention Conference provides a unique forum where we can all come together to learn from each other about the newest science and the best practices in HIV prevention. The conference creates a space to share our different perspectives and experiences, and it provides opportunities to make new connections and build networks that make us even more effective in our efforts to stop the spread of HIV in the United States. We are all in this fight together, and together we are stronger.

## Letter from the Conference Co-Chairs

August 2011

Dear Conference Participants:

Welcome to the 2011 National HIV Prevention Conference. We thank you for participating and hope that you find this conference the most exciting and ambitious program to date.

The 2011 National HIV Prevention Conference is taking place in a period of great hope and many challenges. The science and practice of HIV prevention have continued to advance and present exciting new opportunities for stopping the spread of HIV. At the same time, complacency toward HIV is growing and health departments and community-based organizations around the country are dealing with major budget cuts that have restricted their ability to provide needed HIV prevention and care services.

The National HIV/AIDS Strategy provides a road map for how we can meet these challenges with the most efficient, effective and scalable approaches to HIV prevention and care. The conference organizers are committed to ensuring that this conference contributes to achieving the goals of the National HIV/AIDS Strategy:

- Reducing the number of people who become infected with HIV;
- Increasing access to care and improving health outcomes for people living with HIV;
- Reducing HIV-related health disparities; and
- Achieving a more coordinated national response to the HIV epidemic in the United States

The theme of the 2011 National HIV Prevention Conference is: “The Urgency of Now: Reduce Incidence. Improve Access. Promote Equity.” This theme was chosen to reinforce and reflect the urgent need to quickly and efficiently scale-up proven interventions and improve the coordination of our nation’s response at the national, state, and local levels in order to achieve the maximum impact on HIV incidence, the health of people living with HIV, and HIV-related health disparities.

The 2011 conference is being held shortly after we begin the 4th decade of our nation’s response to HIV and AIDS. This response began when the first cases of AIDS were reported by CDC in June 1981. The National HIV Prevention Conference will provide an important opportunity to look back at the successes and challenges of the first 30 years of the epidemic, the lessons learned, and how we can apply these lessons today to have an even greater impact on the HIV epidemic.

We acknowledge the support of our partners, co-sponsors, staff, and volunteers in making this conference possible. We especially acknowledge your contributions as the people whose efforts make HIV prevention a reality – whether by delivering programs that make a difference, ensuring that those in need of care and prevention receive necessary services, or conducting research to improve our approach to delivering services. While we are here together, let us recommit to HIV prevention and share, learn, and discuss the strategies that will help enhance our prevention efforts.

Thank you for being here and welcome to Atlanta – please enjoy the 2011 conference. We hope that you leave this conference reenergized and ready to adopt even more efficient and effective approaches in meeting the prevention and care needs of those we serve.

## Conference Program Committee

We wish to thank the conference program committee for their work in making this conference a success. The conference co-chairs are responsible for all aspects of the conference. The steering group members provided invaluable suggestions on how to improve the conference over previous years. The track and cross-cutting chairs reviewed the scored abstracts and determined which abstracts to accept. They arranged the sessions for their respective tracks. The conference coordinating team did all of the behind the scenes work (which there was a lot of!).

## New for the 2011 Conference – Highlighting Young Innovators in HIV Research, Prevention or Policy

The 2011 National HIV Prevention Conference is highlighting the work of young innovators in HIV research, prevention, or policy based on the quality of abstracts they submitted to the conference. The success of our efforts to decrease new infections and increase referral to care is dependent on innovations in research and prevention programs. Changes in policy are often needed to facilitate the implementation of new strategies or approaches. We have limited our recognition to young innovators (30 years of age or younger) to encourage their continued contribution to HIV prevention.

The conference Track Chairs selected the following young innovators:

## Sponsored Participants

We are pleased to provide a Sponsored Participant Program (SPP) for the 2011 National HIV Prevention Conference. The generosity of donors and partner organizations has made this possible. Through the SPP, we are able to support the registration, transportation, and lodging of over 150 persons who otherwise would not have been able to attend the conference. Many worked for several months to organize and fund the program, review applications and select scholarship award recipients, and provide the logistical support to those traveling to the conference. We are grateful for the support and leadership of the Sponsored Participant Program Committee.

The image features a large, vibrant red ribbon that curves and loops across the right side of the frame. The background is a gradient of light blue, transitioning into a darker blue at the bottom right. Several thin, white, curved lines are scattered throughout the background, adding a sense of motion and depth. The overall aesthetic is clean, modern, and professional.

## Conference Information

### Badges

Official conference badges must be worn at all times to gain and maintain access to the conference venue. Proof of registration and identity will be required to receive your conference badge. A charge may be incurred for replacement badges.

### Bag Inserts

The conference organizers have provided partner organizations with the opportunity to disseminate information in the official conference bag. These materials represent only the views of the submitting organizations and are not necessarily those of the other partner organizations, co-sponsors, or donors.

### Conference Volunteers

We are very fortunate to have volunteers for the 2011 National HIV Prevention Conference. These are the people who have joined us to work at the conference itself. You'll know them by their red T-shirts indicating they are "Volunteers." You'll find them working behind the registration desk, staffing every conference-sponsored office or lounge, attending every concurrent session, and assisting in the exhibit hall, poster sessions, and the nongovernmental organization (NGO)/community based organization (CBO) Village. These are the people with ready smiles asking "How can I help you?" They are talented and enthusiastic and join us here to provide services for you at the conference. From all of us on the conference staff, we extend to these volunteers our deepest appreciation for their efforts!

### Business Center

The Hyatt Regency Atlanta Hotel maintains a Business Center on the Lobby level. The Business Center is open for use from 7:00 a.m. – 7:00 p.m. (Monday-Friday) and is available to conference

participants on a fee-for-service basis. The Business Center is not restricted to those registered at the Hyatt Regency Atlanta Hotel. The FedEx Office is located inside the Atlanta Marriott Marquis Hotel on the Marriott level and is open for service from 3:00 p.m. – 11:00 p.m. (Sunday); 6:30 a.m. – 11:00 p.m. (Monday-Friday); and 9:00 a.m. – 5:00 p.m. (Saturday).

### NGO/CBO Village

On Monday evening, August 15, the conference will host the NGO/CBO Village. The evening will include exhibits from NGOs and community-based organizations, food and music. The NGO/CBO Village will be open from 6:00 p.m. to 8:00 p.m. in the Atrium Ballroom (on the Atrium level) at the Atlanta Marriott Marquis Hotel. The NGO/CBO Village section of this book contains a list of participants as of July 1, 2011. A more complete list will be provided at the event.

### Conference Materials

Upon presentation of your registration receipt at the conference check-in area, you will receive the conference program book, abstract disc, official badge, and other materials. The program book contains helpful information about the conference venue and lists all conference activities by day, time, event, and location. The abstract disc contains nearly 650 peer-reviewed abstracts by U.S. and international authors. This disc organizes the abstracts in the order that they are presented in the program and also indexes them by presenting author, population, subject category, and presentation day/time.

### Online Continuing Education System

The conference is approved for Continuing Medical Education (CME) credits, Continuing Nursing Education (CNE) credits, Continuing Education Units (CEUs), and Certified Health Education Specialist (CHES) contact hours. These credits will

be awarded free of charge. Continuing Education credit submissions will be online only. Submissions will be accepted during and after the conference via the Internet. Computers, forms, and instructions will be available during the conference in Cyber Café (Hanover A/B) on the exhibit level of the Hyatt Regency Atlanta Hotel.

### Cultural Events

“For generations, music has been an instrumental and leading force behind movements of unity, support and social healing. Therefore, it makes perfect sense that music has been compiled to address and combat a pandemic that affects each and every one of us. When words to speak are not available to express concern, understanding and pain, words set to music continue to fill voids, heal wounds and mend hearts.”

*- Vicki Mack Lataillade, Gil Robertson, Claude Lataillade, Max Siegel - Zomba Label Group*

**On Sunday evening, August 14**, the Opening Session will feature Giwayen Mata and the Stephenson High School Drum Line.

- **Giwayen Mata – Omelika Kuumbe, PhD, Spelman College**

As the Co-founder and Artistic Director of Giwayen Mata, the award-winning, soul-stirring, dance, percussion, and vocal ensemble, Dr. Kuumbe utilizes her talents to educate, entertain, and delight audiences world-wide. Their performances often highlight traditional as well as original and contemporary works addressing issues about people of color, women, and the environment.

- **Stephenson High School Drum Line**

The Stephenson High School Drum Line from Stone Mountain, Georgia is conducted by Quentin R. Goins. It is the mission of the Stephenson High School Band program to foster an appreciation of good music and to create a positive camaraderie for the students and

community. The internationally acclaimed Band Program performed in the 113th Tournament of Roses Parade and the 81st Macy’s Thanksgiving Day Parade.

**On Sunday evening, August 14**, the Directors Reception [7:00 p.m. – 9:00 p.m.] will feature the TraVerse Jazz Trio; Landi Jackson-James; W.A.I.T.A. Band; and Terry Dukes.

- **TraVerse**

TraVerse consists of Paul Calhoun, III (keyboards), Antoine Gibson (saxophones), Andre Barney (drums/percussions), and Chibale Wiggins (bass/sound production). They all met during their High School years and formed their JAZZ ensemble under the guidance of Quentin Goins. They are off to college this fall to continue their education but are spending the summer recording their first CD!

- **Landi Jackson and Joel Boyce**

Landi Jackson-James sang her first solo in church at the age of three and has performed throughout the beautiful Caribbean, including performing in local talent shows. She is a praise leader at her church, and has opened for CeCe Winans, Kirk Franklin, Yolanda Adams, and Fred Hammond. Landi works at CDC. She has lived in Atlanta for 15 years and is the wife of her high school sweetheart and the mother of three beautiful girls.

Landi is accompanied by Mr. Joel Boyce. Joel is the Assistant Minister of Music at the West End SDA Church. During his college years, he sang and traveled with the Aeolians of Oakwood University. He is married to Rolandria Boyce, and together they have a son, Christopher Boyce.

- **W.A.I.T.A. (We are therefore, I AM) Band**

David Fuller and his band members represent numerous National Historic Black Colleges located throughout the south. They came together to form an eclectic band and specialize in rhythms to listen, dance, and enjoy. These

very talented musicians are in high demand and play all over the Atlanta area.

- **Terry Dukes**

Terry Dukes is a native Atlantan whose singing career began when he joined the local group call the “Pendulum Swingers” in 1971. Terry sang backup and played keyboard for Grammy Award winner Peabo Bryson for more than 9 years. Terry is known for his sultry voice and serves as the Music Director of the “630 Convention Center” in Atlanta.

- **Facing South Bluegrass Band**

The Bands members include: Terry Lee – Bass, Don Lundy – Mandolin, Estill Nicholson – Guitar, and Mike Soucie – Banjo. The band has been playing bluegrass music together for over 10 years and perform a variety of music styles from traditional to gospel.

**On Monday, August 15 [6:00 p.m. – 8:00 p.m.]**, the NGO Village will feature Asia Vitale; Stephenson Repertory Dance Ensemble; Chaelea Cummings-Spoken Word; Price Performing Arts Center; and Enrique Mercado and Orquesta Lyrica.

- **Asia Vitale**

Asia Vitale is an advocate, singer, model and actress as well as a multiple pageant-title-holder. Asia’s big break came when she modeled for the “Bionic Woman—Transgender” poster to promote HIV prevention in the transgender community. She was recently featured in the first-ever music video of a Transman with a Transwoman love interest in Josh Klipp’s song, “Tell Me”, shown on MTV’s Logo channel.

- **Stephenson High School Repertory Dance Ensemble**

This is a unique set of talented dancers who are amazing. They are choreographed by Carla R. Watley. The Ensemble is committed to providing student’s opportunities in extracurricular education and intensive instruction in ballet, modern, jazz, composition, African and other

forms of dance. They have performed at Disney World, the Annual Youth Summit convened by 100 Black Men of Dekalb, Book signings, Church sponsored and other community-wide activities.

- **Chaelea Cummings–Spoken Word**

Chaelea comes to us from Raleigh, North Carolina. Her poem initially was written and geared towards prevention and awareness in the African American Community (AAC). She has delivered her bodacious messages to HIV/AIDS audiences for several years at community sponsored functions, BET Rap-It-Up; as well as, non-AAC organization events. Chaelea, has many creative talents but her passion is the spoken word. She loves utilizing her voice and talent to communicate messages to all persons young and old.

- **Price Performing Arts Center**

Price Performing Arts Center (PPAC) provides quality dance training in the disciplines of ballet, tap, jazz, modern, pointe, African, lyrical and hip hop for ages 3 through adult. Andrea Price is the founder and choreographer. PPAC prides itself on training aspiring dancers to accomplish their dreams. PPAC has had dancers accepted to the Juilliard School Professional Summer Dance Program and the Alvin Ailey Professional Summer Dance and Fellowship programs

- **Enrique Mercado and Orquesta Lyrica**

Orquesta Lyrica has performed the vibrant sounds of Latin America in Atlanta and the rest of the Southeast for more than 30 years. Their debut CD is “Latino Soy.” Translated, it is “I am Latin,” a statement about an entire culture, how they feel about themselves, life, and where they have come from. It speaks of immigrant Latinos, who have left their home towns and villages, and have come to America to seek the great American Dream, and reflects on those who have remained in their homelands and are struggling to succeed.

**On Wednesday, August 17**, the Closing Plenary will feature Enrique Mercado and Orquesta Lyrica.

## Conference Information (Continued)

### Exhibits

The conference Exhibit Hall, located in the Grand Hall on the Exhibit Level, features displays by HIV prevention providers and vendors around the country. ## MONDAY, AUGUST 15, 2011 | PLENARY SESSION | 8:30 AM – 10:00 AM

### PL02 - REDUCING HIV INCIDENCE

This plenary will focus on the science of HIV prevention and what needs to be done in order to achieve the President's goal of reducing HIV incidence by 25% by 2015. The session is built around the 3 National HIV/AIDS Strategy steps that are essential to reducing HIV incidence.

**Session Location: Centennial Ballroom  
(Hyatt Hotel – Ballroom Level)**

#### Moderators:

Kevin A. Fenton, MD, PhD, FFPH  
Director, National Center for HIV/AIDS, Viral Hepatitis, STD and Prevention  
Centers for Disease Control and Prevention

Richard Wolitski, PhD  
Deputy Director, Behavioral and Social Science  
Division of HIV/AIDS Prevention  
National Center for HIV/AIDS, Viral Hepatitis, STD,  
and TB Prevention  
Centers for Disease Control and Prevention

### Maximizing the Impact of Combination Prevention

This presentation will summarize the state-of-the-science regarding cost effective approaches to combining available HIV prevention interventions. The presentation will address how behavioral and biomedical interventions targeting individuals, couples, communities and structural influences should work together and how the cost effectiveness of interventions, HIV transmission in disproportionately burdened communities, and geography should be considered in a comprehensive approach.

David Holtgrave, PhD  
Johns Hopkins University  
Professor and Chair  
Department of Health, Behavior, and Society  
Bloomberg School of Public Health

### Intensifying HIV Prevention in Communities Where HIV is Most Heavily Concentrated

This presentation will provide an overview of the economic and public health cases for directing resources to those communities at greatest risk. The presentation will address: targeting of resources by geographic area (both in terms of health jurisdictions and specific neighborhoods within these jurisdictions), people living with HIV, and populations at greatest risk.

Moupali Das, MD, MPH  
Director of Research, HIV Prevention Section  
San Francisco Department of Public Health

### Educating and Mobilizing All Americans to Reduce HIV Incidence

This presentation will communicate how apathy, stigma, and inaccurate knowledge about HIV in the general population contribute to the spread of HIV in the United States and why all Americans need to be involved in the fight against HIV. It will highlight proven strategies for communicating about HIV and its effects to the general population and disproportionately affected communities, promoting accurate knowledge, supportive attitudes, and HIV screening, as well as how more Americans might be engaged in the fight against HIV. Act Against AIDS and other campaigns that are currently being conducted will be highlighted.

Richard Sorian  
Assistant Secretary for Public Affairs  
Department of Health and Human Services

### Track D

#### Session D32 - The Role of the Clinic in Prevention of Secondary HIV Transmission

**Location:** A707 (Atlanta Marriott Marquis)

**Description:** Recent modeling suggests that small changes in risk reduction among HIV positive persons yield far greater impact with respect to likely HIV infections averted than larger changes among HIV negative persons. This session focuses on the evaluation of secondary HIV prevention strategies within the context of HIV primary care, including an evaluation of a motivational interview-based safer sex program in three North Carolina clinics, a retrospective cohort study evaluating whether high-risk HIV positive patients received HIV prevention counseling at one HIV care clinic in Rhode Island, and an evaluation of the impact of case management on treatment adherence.

**Presentation 1** – (Abstract ID 1451) Does HIV/AIDS case management bring about positive outcomes? Results from Five Diverse Programs in ConnectHIV

**Presenter:** Susan Rogers

## MONDAY, AUGUST 15 | CONCURRENT SESSION | 3:30 PM – 5:00 PM

### Session of Special Interest - 30 Years of HIV Prevention – An Historic CDC Perspective

**Location:** Regency Ballroom VI (Hyatt Regency Atlanta)

**Description:** This session will feature the former leaders of HIV prevention efforts at CDC. Each panelist will answer a series of questions by a moderator, designed to capture issues from their specific period of service, and then participate in an open dialogue with their colleagues about their past experience and current-day recommendations.

### Session of Special Interest - Parameters of STD/HIV Prevention: Defining the Question

**Location:** A703 (Atlanta Marriott Marquis)

**Description:** This symposium will focus on the key programmatic questions involved in the development, implementation and evaluation of science based prevention programs which bring prevention technologies that have been proven efficacious (such as antiretroviral therapy, microbicides, circumcision, PMTCT and antiretrovirals for prevention) to communities.

**Invited Speakers:** James Blanchard; David Peters; Gail Bolan; Nancy Padian

### Session of Special Interest - Using Text Messaging, Apps, and the Mobile Web for HIV Prevention

**Location:** Lenox (Hyatt Regency Atlanta)

**Description:** The majority of American adults have a mobile phone and more and more of them, particularly African Americans and Latinos, are using them to learn about health information

or to manage their health. Come learn about how mobile can help you reach your community.

**Invited Speakers:** Jeremy Vanderlain, AIDS.gov

#### Session DR07 - What is CARE Without Prevention? The Effectiveness of a Combined CPG and RW Planning Council

**Location:** Hanover E (Hyatt Regency Atlanta)

**Description:** Some jurisdictions around the U.S. have found that the combination of a Community Planning Group (CPG) and Ryan White Planning Council (RWPC) provides for better communication between prevention agencies and care service providers. Facilitators

## ROUNDTABLE SESSION | MONDAY, 5:15 PM – 6:00 PM (Continued)

of this roundtable will present and discuss their successes with a combined CPG and RWPC in the Kansas City area which have included: 1) shared data, 2) community outreach; 3) services provided; 4) bi-state collaborations; 5) in-depth involvement of community members 6) linkage-to-care and opt-out testing programs. Challenges encountered in this approach will also be discussed.

**Presentation** – (Abstract ID 2001) What is CARE without Prevention? The effectiveness of a combined CPG and RW Planning Council

**Presenter:** Samantha Hughes

**Author(s):** Samantha Hughes

### Track D

#### Session DR08 - Making LINKS: Lessons from Implementing and Navigating Key Steps from Selecting to Adapting an EBI

**Location:** Hanover F/G (Hyatt Regency Atlanta)

**Description:** Selecting an evidence-based intervention (EBI) often has a decisive influence on the future success and sustained effectiveness of an HIV Prevention program. Lack of a firm understanding of the important pre-selection step of formative evaluation in the community and at the agency level can negatively affect the process of adapting an intervention and its expected outcomes. This roundtable will discuss how to efficiently coordinate the selection and adaptation process in a cost-effective (time and money) manner. Additionally, facilitators will share and discuss an adaptation tool product that will facilitate a logical comprehensive adaptation consideration process for community based organizations (CBOs).

**Presentation** – (Abstract ID 1345) Making

LINKS: Lessons from Implementing and Navigating Key Steps from Selecting to Adapting an EBI

**Presenter:** Sharon Asonganyi

**Author(s):** Asonganyi, S.A; Lumby, E.C

### Track E

#### Session ER01 - Community Driven Responses to Late Diagnosis of HIV: From the Bottom Up

**Location:** Hong Kong (Hyatt Regency Atlanta)

**Description:** This roundtable will discuss community-based participatory research to engage community and other stakeholders to address late HIV diagnosis in Oakland, California

**Presentation** – (Abstract ID 1603) Community Driven Responses to Late Diagnosis of HIV: From the Bottom Up

**Presenter:** Ifeoma Udoh

**Author(s):** Ifeoma Udoh; Megan Dunbar; Ben Plumley; Sandra McCoy; Nancy Padian; Meridith Minkler; Carla Dillard Smith; Angel Fabian

### Track E

#### Session ER02 - The Promise of PrEP - Moving from Randomized Trials to Program Implementation

**Location:** Singapore/Manila (Hyatt Regency Atlanta)

**Description:** This roundtable will discuss the challenges and barriers to PrEP implementation projects using data from the literature and community experience.

**Presentation** – (Abstract ID 1693) The Promise of PrEP? Moving from Randomized Trials to Program Implementation

**Presenter:** Grant Colfax

**Author(s):** Grant Colfax; Judith Auerbach

## ROUNDTABLE SESSION | MONDAY, 5:15 PM – 6:00 PM (Continued)

### Track F

#### Session FR02 - Expanding HIV Testing and Health Reform

## TUESDAY, AUGUST 16 | ROUNDTABLE SESSIONS | 7:30 AM – 8:15 AM

### Track D

#### Session DR09 - The Use of ICT (Information, Communication, Technology) to Supplement Traditional HIV Prevention Services

**Location:** Hanover C (Hyatt Regency Atlanta)

**Description:** In recent times of financial stress, some HIV service providers have turned to the use of ICT services (Information, Communication, Technology) in an effort to be more cost effective. Yet, there is a general lack of capacity on how to use this platform effectively for HIV Prevention Services. When ICT is used effectively, it can bring increased knowledge around specific topics, maximize the use of financial resources, and shorten the distance between a provider and a physically remote client. In this roundtable, staff from Shared Action will discuss its lessons learned and best practices of using multiple ICT platforms.

**Presentation** – (Abstract ID 1271) The Use of ICT (Information, Communication, Technology) to Supplement Traditional HIV Prevention Services

**Presenter:** Oscar Márquez

**Author(s):** Oscar Márquez; Miguel Chion

### Track D

#### Session DR10 - Forty-Seven Pages Later: CBO Assessment Best Practices

**Location:** Hanover D (Hyatt Regency Atlanta)

**Description:** During the past 10-15 years, capacity building assistance services that incorporate structure, accountability, efficiency, and enhanced outcomes continue to be developed. Best practices and lessons learned have been critical to the overall improvement of CBA. In this roundtable, facilitators will present

and discuss with the group their six-month experience with using the CDC CBO Assessment Tool with assigned recipients of HIV prevention grants under Funding Opportunity Announcement (FOA) PS10-1003.

**Presentation** – (Abstract ID 1997) Forty-Seven Pages Later: CBO Assessment Best Practices

**Presenter:** Pamela Tassin

**Author(s):** Pamela Tassin; Shaune D. Freeman

### Track D

#### Session DR11 - Helping HIV+ Women Gain Control of Their Health

**Location:** Hanover E (Hyatt Regency Atlanta)

**Description:** A number of prevention providers are continually faced with challenges of recruitment and retention when conducting Healthy Relationships (HR) groups with women. Facilitators of this roundtable will present a selection of the challenges HIV+ women face in participating fully in HR and strategies used to help them do so. Facilitators will pool the knowledge and experiences of the session participants, and share successes and lessons learned while recruiting and retaining female clients for HR.

**Presentation** – (Abstract ID 1286) Helping HIV+ Women Gain Control of their Health

**Presenter:** Cora Giddens

**Author(s):** Cora E. Giddens

### Track D

#### Session DR12 - DASH into Schools: Bringing HIV Interventions for Youth to a Broad Audience

**Location:** Hanover F/G (Hyatt Regency Atlanta)

## TUESDAY, AUGUST 16 | ROUNDTABLE SESSIONS | 7:30 AM – 8:15 AM

**Description:** While schools represent a key venue for implementing behavior change interventions with youth, navigating local control and gaining to access schools can be extremely challenging for health organizations. Facilitators from CDC's Division of Adolescent and School Health (DASH) will present and discuss the challenges and opportunities for partnering with schools, how to talk about HIV prevention in language that motivates schools and school systems, and how to link with DASH-funded partners in education agencies.

**Presentation** – (Abstract ID 1269) DASH into Schools: Bring HIV Interventions for Youth to a Broad Audience

**Presenter:** Sharon Wong

**Author(s):** Sharon E. Wong; John C. Canfield

### Track D

#### Session DR19 - Program Sustainability for HIV Prevention Program

**Location:** A703 (Atlanta Marriott Marquis)

**Description:** With the recent economic recession and national funding cuts, organizations are faced with a series of challenges in managing and sustaining their HIV prevention efforts. In order to ensure continuity of services, organizations are being forced to look at creative ways to sustain their programs and services. This entails a new series of strategies to be developed even before programs are designed and implemented. Facilitators in this roundtable will present and lead a discussion of several approaches that can be used to ensure program sustainability.

**Presentation** – (Abstract ID 1868) Program Sustainability for HIV Prevention Program

**Presenter:** Leandro Rodríguez Ramos

**Author(s):** Leandro E. Rodríguez Ramos; Kevin Williams

### Track D

#### Session DR20 - Positive and Proactive: Implementing Empowerment Based Programming in HIV Primary Care Settings

**Location:** A705 (Atlanta Marriott Marquis)

**Description:** Although interventions have been developed that effectively address risky sexual behavior among this population, Urban Young Men who have Sex with Men of Color remain disengaged in medical care and represent a significant portion of people living with HIV and AIDS. Lack of long-term programming and limited attention to group programming in HIV care practices result in HIV/AIDS medical practices being unsure of how to retain and engage this hard to reach population in medical care. The Facilitator of this roundtable will present and discuss with the group a pilot program, SWEAT (Sexuality With Education And Truth) conducted in a Pediatric HIV/AIDS practice in Philadelphia. The SWEAT program includes continuous long-term programming: a group level intervention, street team leadership development program and a men's health seminar series.

**Presentation** – (Abstract ID 1524) Positive and Proactive: Implementing Empowerment Based Programming in HIV Primary Care Settings

**Presenter:** Noel Ramírez

**Author(s):** Noel Ramírez; Jill Foster

### Track D

#### Session DR28 - Using Social Networking Strategies in the House and Ball Scene to Provide HIV Prevention Services

**Location:** Cairo (Hyatt Regency Atlanta)

**Description:** As Black MSM and YMSM continue

## ROUNDTABLE SESSIONS | TUESDAY, 7:30 AM – 8:15 AM (Continued)

to drive the rates of new infections in urban areas throughout the country, it is imperative that service providers are culturally sensitive to the needs of this population. This includes understanding the role that the House and Ball community plays in influencing many young MSM. By formally recruiting “House parent(s)” to become involved in the messaging and testing efforts, agencies can improve their reach and credibility within this high risk population. Facilitators in this roundtable will engage attendees by discussing several strategies of how to reach and retain young MSM by forming working relationships with the House and Ball community.

**Presentation** – (Abstract ID 1989) Using Social Networking Strategies in the House and Ball Scene to Provide HIV Prevention Services

**Presenter:** Michael Serrano

**Author(s):** Michael Serrano; Tony Ray; Dashaun Williams; Sean Coleman

### Track D

#### Session DR29 - Preventing HIV/AIDS Epidemic Among Asian Americans and Pacific Islanders (API) Through Behavioral and Social Intervention

**Location:** Singapore/Manila (Hyatt Regency Atlanta)

**Description:** Because the proportion of API living with HIV/AIDS is small relative to other racial/ethnic groups, they are often overlooked by many HIV/AIDS preventive and education programs in developing culturally specific approaches. The lack of HIV prevention and education programs that target API population has become a contributing factor to a recent increase in HIV infection rates among APIs. This roundtable will feature an open discussion about best practices for engaging API communities in HIV prevention. The facilitators believe that integrating evidence-

based prevention strategies from behavioral and social intervention approaches will reduce the risk of HIV infection and increase HIV testing among API.

**Presentation** – (Abstract ID 1722) Preventing HIV/AIDS Epidemic among Asian Americans and Pacific Islanders through Behavioral and Social Intervention

**Presenter:** LeQuyen Tran

**Author(s):** LeQuyen Tran;  
Frances E. Ashe-Goins

### Track D

#### Session DR30 - Project Saved! Engaging and Building the Capacity of African American Clergy for HIV Prevention

**Location:** Vancouver/Montreal (Hyatt Regency Atlanta)

**Description:** Facilitators will discuss Project SAVED a CDC Community HIV Capacity Building initiative and its effectiveness in 1) utilizing a community participatory model for capacity building; 2) delivery of capacity building for clergy; 3) developing culturally competent strategies for HIV testing and linking underserved African Americans to care; 4) engaging and sustaining clergy and community stakeholders for HIV prevention. Clergy will be present to discuss their participation in the project.

**Presentation** – (Abstract ID 1892) Project SAVED! Engaging and Building the Capacity of African American Clergy for HIV Prevention

**Presenter:** Jacqueline Hampton

**Author(s):** Jacqueline F. Hampton; Ross Fleming, III; James EK Hildreth; Mark Thompson; David Cooper; Johnny B. Woodhouse; Leroy M. Mitchell, III; Welton T. Smith; Jemaryn S. Williams; Sharon L. Crawford

## ROUNDTABLE SESSIONS | TUESDAY, 7:30 AM – 8:15 AM (Continued)

### Track E

#### Session ER03 - Can PrEP Be a Force for HIV Prevention Justice?

**Location:** A701 (Atlanta Marriott Marquis)

**Description:** PrEP trial investigators, community advocates, and human rights activists will lead a discussion on the issues of ethics, justice, and equity as they relate to new HIV biomedical prevention strategies.

**Presentation** – (Abstract ID 1758) Can PrEP Be a Force for HIV Prevention Justice?

**Presenter:** Julie Davids

**Author(s):** Julie Davids

### Track F

#### Session FR06 - Priority Setting for HIV Interventions in Enhanced Comprehensive HIV Prevention Plans for Metropolitan Statistical Areas

**Location:** Baker (Hyatt Regency Atlanta)

**Description:** This roundtable will discuss a CDC prepared tool designed to help prioritize interventions in the Enhanced Comprehensive HIV Prevention Plan for 12 Metropolitan Statistical Areas that represent 44% of the HIV Epidemic.

**Presentation** – (Abstract ID 1327) Priority Setting for HIV Interventions in Enhanced Comprehensive HIV Prevention Plans for Metropolitan Statistical Areas

**Presenter:** Feng Lin

**Author(s):** Feng Lin; Arielle Lasry

### Track F

#### Session FR07 - Advocating for and Delivering HIV/STD Prevention Among Older Adults

**Location:** Courtland (Hyatt Regency Atlanta)

**Description:** This roundtable discusses issues related to and policy recommendations for HIV Prevention and care for people over the age of 50.

**Presentation** – (Abstract ID 1512) Advocating for and Delivering HIV/STD Prevention Among Older Adults

## TUESDAY, AUGUST 16, 2011 | PLENARY SESSION | 8:30 AM – 10:00 AM

### PL03 - IMPROVING ACCESS TO HIV CARE

This session will focus on issues, strategies, and challenges related to entry into comprehensive high-quality HIV care. The session will relate access to care to the National HIV/AIDS Strategy (NHAS). Topics for discussion are getting individuals into care earlier in the course of their HIV infection, continuing disparities in access to care for various populations groups, and a consideration of those individuals who are currently unaware of their seropositive status and those who are aware of their status but are not receiving regular HIV medical care (unmet need). The session will focus on three important areas: Test and Treat, Community Viral Load, and Routine Testing.

**Session Location: Centennial Ballroom  
(Hyatt Hotel – Ballroom Level)**

## TUESDAY, AUGUST 16 | CONCURRENT SESSION | 10:30 AM – 12:00 PM

### Session of Special Interest - Act Against AIDS Leadership Initiative (AAALI): Harnessing the Strength of National Organizations to Reach Communities Hardest Hit by HIV

**Location:** Regency Ballroom VII (Hyatt Regency Atlanta)

**Description:** AAALI is a six-year partnership between CDC and some of the country's leading national organizations representing the populations hardest hit by HIV. Participants will learn about the strategies and activities AAALI organizations are using to address HIV among impacted communities, and what opportunities exist for partnering for joint mobilization efforts.

**Invited Speakers:** Robert Bailey II; Joynecia Clements-Powell

### Session of Special Interest - Interface of STD/HIV Behavioral and Biomedical Interventions: Where is the Weak Link?

**Location:** A703 (Atlanta Marriott Marquis)

**Description:** This symposium will focus on emergent behavioral issues of major significance that accompany the recent successes of biomedical prevention technologies such as circumcision, antiretrovirals for prevention, and microbicides. The potential net effects of biomedical and behavioral changes overtime on the transmission dynamics of HIV and other STD; and potential effects on the emergence of resistance will be discussed.

**Invited Speakers:** Sten Vermund; Thomas Quinn; Matthew Hogben; Tom Peterman

### Session of Special Interest - 508 Compliance: It's not just a number

**Location:** Lenox (Hyatt Regency Atlanta)

**Description:** Did you know 508 compliance has been required since 1995? And it's not just the law - it's the right thing to do. Learn about tips and tools about how to make your information accessible for ALL people.

**Invited Speakers:** AIDS.gov staff

### Session of Special Interest - U.S. Policies and Programmes: Keeping in Step with Global HIV Advocacy Priorities

**Location:** A705 (Atlanta Marriott Marquis)

**Description:** The session will be used to review and discuss US policies and programs based on the framework of four key current global policy and advocacy priorities in HIV/AIDS. The four priorities chosen being stigma and discrimination in relation to HIV professionals; social sciences in HIV/AIDS; illicit drug policies; and HIV cure. Speakers and participants will look at how local communities and HIV professionals can link into the ongoing work in these areas. It will also be an opportunity for participants to learn how they can get the maximum benefits from the forthcoming International AIDS Conference in Washington DC in July 2012.

**Invited Speakers:** Bertrand Audoin, Cheryl Smith, Judith Auerbach, Chris Beyrer, Steven Deeks

30 years ago,  
the fight against HIV began . . .

In 2011, the fight continues

# ACT against AIDS™

[www.actagainstaids.org](http://www.actagainstaids.org)

Download materials and view the seven different campaigns of Act Against AIDS.

**Get the Facts. Get Tested. Get Involved.**

**E**

HIV AFFECTS EVERYONE

Featuring the THE NATIONAL HIV/AIDS STRATEGY, the PUBLIC HEALTH AGENCIES, the PREVENTION PARTNERS, the ACT AGAINST AIDS LEADERSHIP INITIATIVE, and the EVERYDAY HEROES that have supported the CENTERS FOR DISEASE CONTROL AND PREVENTION'S ACT AGAINST AIDS campaign, reaching millions of people with HIV prevention messages.

**COMING SOON:** New HIV awareness campaign material; Expansion of "Take Charge. Take the Test.™" for African American women; New black MSM testing campaign.
